## SM-5300 X

PC Based System Scale Printer

Searching for a New Balance

<sup>\*</sup>To achieve maximum print speed, high sensitivity thermal paper is necessary.

<sup>\*\*</sup> All the images are used for illustration purpose only.

\*\*\* Console variant is available.

# designed to $\chi$ cite, SM-5300 crafted to Ycel

## $\chi$ plore new solutions

Maintain social distancing by keeping in-store gueues virtual. When combined with the collection system, retailers can offer a contactless pickup experience to ensure the safety of customers and employees.

- Minimises physical clustering
- Customisable queue and collection ticket
- Optimise waiting time with multi-department
- Supports API integration with third-party mobile queue app

Speed ID taps on RFID technology for a contactless user login to the scale while keeping the scale safe from unauthorised usage. Its touchless nature helps to safeguard the workplace by limiting physical contact amongst operators.

- Available in 2 variants: tag or wristband
- Built-in clerk log report allows contact tracing and reduces shrinkage

Wristband

DIGI Management Console enables remote management of scale data and label design in real-time. Scale and printer status can be monitored at a glance with its dashboard overview. This cloud-based service also provides remote access to sales reports and other remote services such as network wide configuration and software updates.

- Remote operation eliminates unnecessary physical interactions
- Reduce downtime and increase productivity

InfoTag is an enterprise-grade electronic shelf label that grants pricing automation via wireless updates. Its QR code and NFC -Near Field Communication capabilities make product information readily available to customers via their mobile devices.

- Ensures social distancing with remote price update
- Promote product and speed up order picking with LED flash indicator
- Low temperature variant available for freezer environment

e.Label combines a high definition e-Paper display with the tap-activated Hi-Touch feature to achieve maximum readability and fast PLU call-up. Designed for wet environments, the IP67-certified electronic labels are water-resistant and washable to help retailers maintain high hygiene standards.

- Reduce in-store physical interactions with remote price updates
- Hi-Touch delivers error-free automatic PLU call-up to boost operational efficiency
- Available in 3 sizes (1.54", 2.7", 4.2")

## $ma\chi$ imised value

DIGI's waste management solution accurately tracks and measures wastage by capturing its data according to type, quantity or reason and location of disposal.

- Improve procurement planning and profitability by drawing insights from analysis report
- Identify near-expiry products for markdowns

#### **Next-Generation User Interface**

SM-5300 % features a new user interface that maximises screen usage, displaying only the necessary function keys related to each specific mode. When combined with the capacitive touchscreen, navigation is seamless and easy for every user.

- Favourites ★ Tab
- Swipe Gestures
- Mode-Specific Function Keys

## Interactive Customer Displays

Native video playback capability offers an additional avenue to showcase promotional contents that can strengthen in-store marketing efforts and boost customer engagement.

- Support dynamic advertisements
- Enable upsell and cross-sell

10.1" Customer Display for Elevated & Hanging

## $\chi$ ceptional performance

With no backing paper and twice as many label prints on a single label roll, this sustainable solution helps businesses to maximise inventory space while reducing logistic costs.

- Quick and easy roll replacement
- Flexible label design
- Crisp and appealing label presentation
